# BRIGHT COFFEE SHOP

**Analysis by : Lehlogonolo Sebothoma**

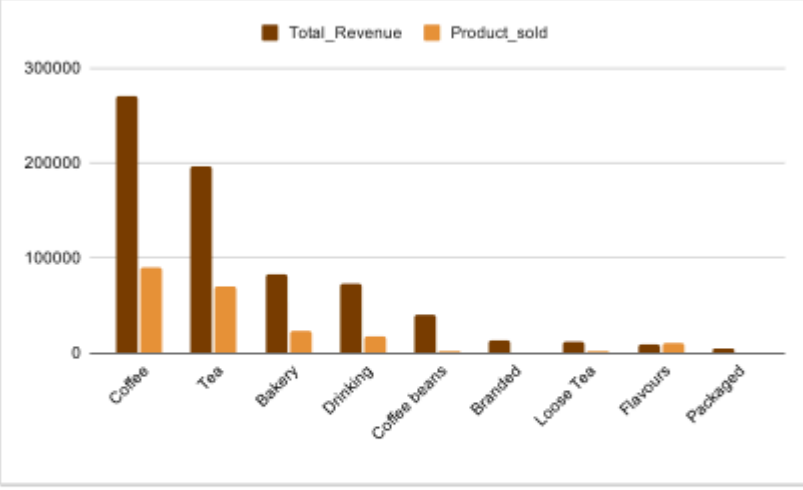
# MISSION

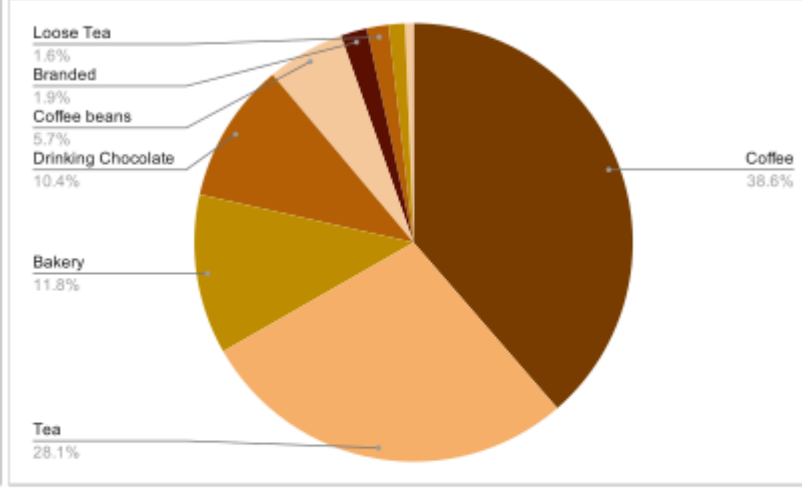
. Grow the company’s revenue and improve product performance.

# PRESENTATION OUTLINE

. Data collection from 10 January to 30 June 2023 shows a total revenue of 698 812 from three stores which is Low manhattan, Hell’s kitchen and Astoria . Lower manhattan is the top performing store , with peak sales occurring in the morning between 6AM and 11AM.

**REVENUE AND UNITS SOLD BY CATEGORY**





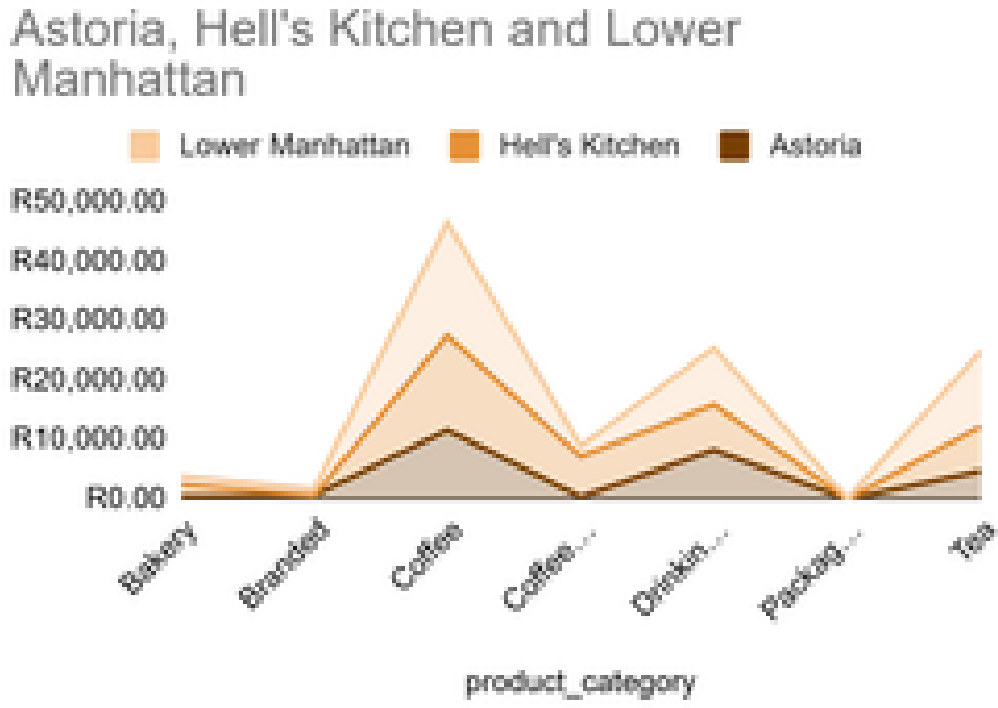
**KEY INSIGHTS**

. Coffee and Tea generate the most revenue and have the highest units sold, indicating strong customer prefernce.

. Bakery iteams bring notable revenue despite fewer units, suggesting higher pricing or margin.

. Categories like blended loose tea, flovours, and packaging choco show how low revenue and sales volume possibly needing promotional boost or review.

# REVENUE PERFORMANCE BY PRODUCT CATEGORY

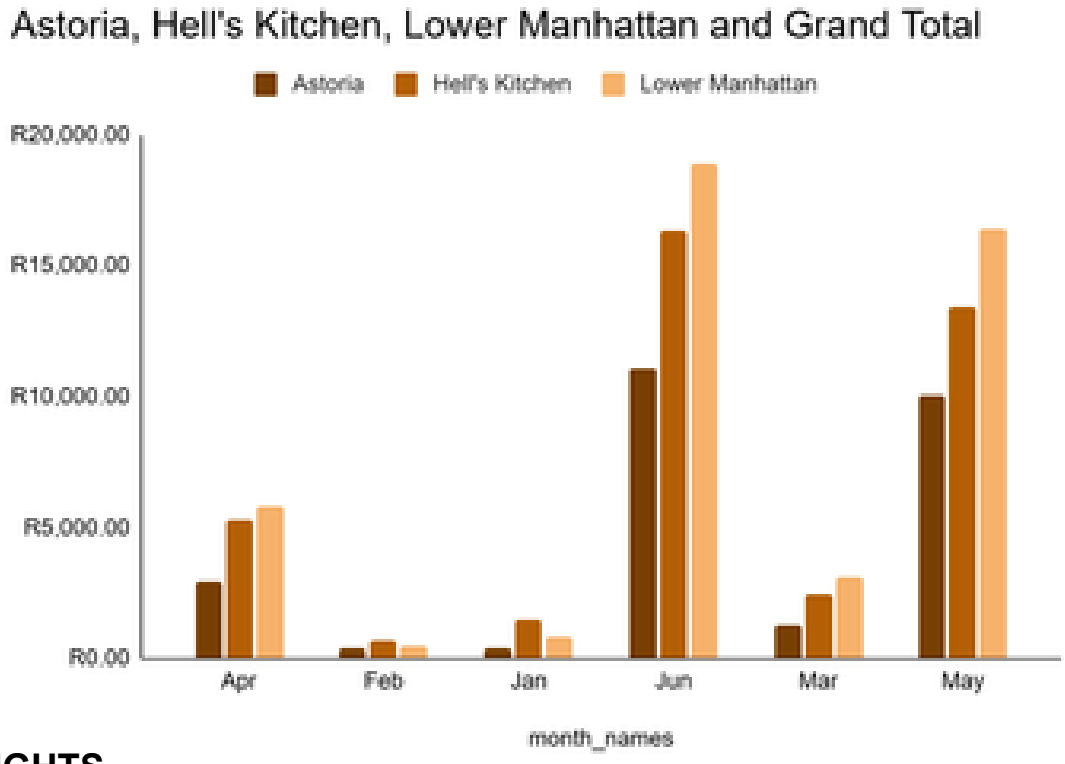


## KEY INSIGHTS

. The Coffee generates the highest revenue across all three locations, peaking at roughly R46 000.

. Coffee beans and drinking chocolate bring moderate revenue, while bakery and packaged chocolate have the lowest sales compared with the other categories.

# MONTHLY REVENUE

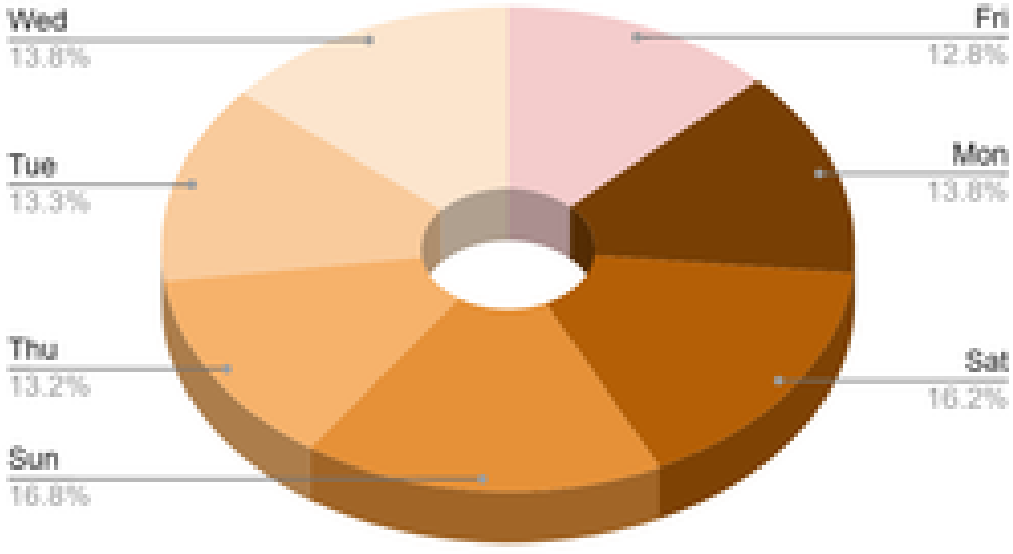


## KEY INSIGHTS

. June spikes the highest revenue across all three locations, indicating a strong seasonal effect in that month.

. Lower manhattan consistently outperforms Astoria and Hell's kitchen in most month except in March, showing it has the strongest sales performance among the three stores.

REVENUE ANALYSIS BY DAY AND MONTH



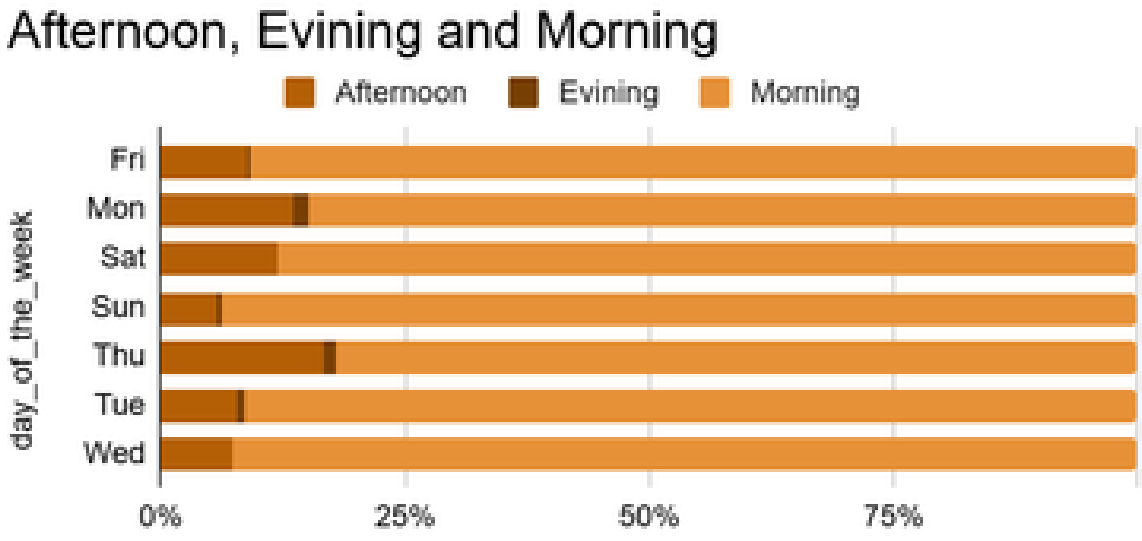
## KEY INSIGHTS

. The average daily revenue is highest on Saturday and lowest on Tuesday.

. The grand total revenue across the months is R698812.32, May generetes the highest total revenue 0f R156 727.19 while February has the lowest total revenue of R76 145.19.

. Revenue peaks on Saturday and Sunday with totals of R101 677.28 and R96 894.48 respectively indicating strong weekend sales.

# DAILY TIME BREAKDOWN

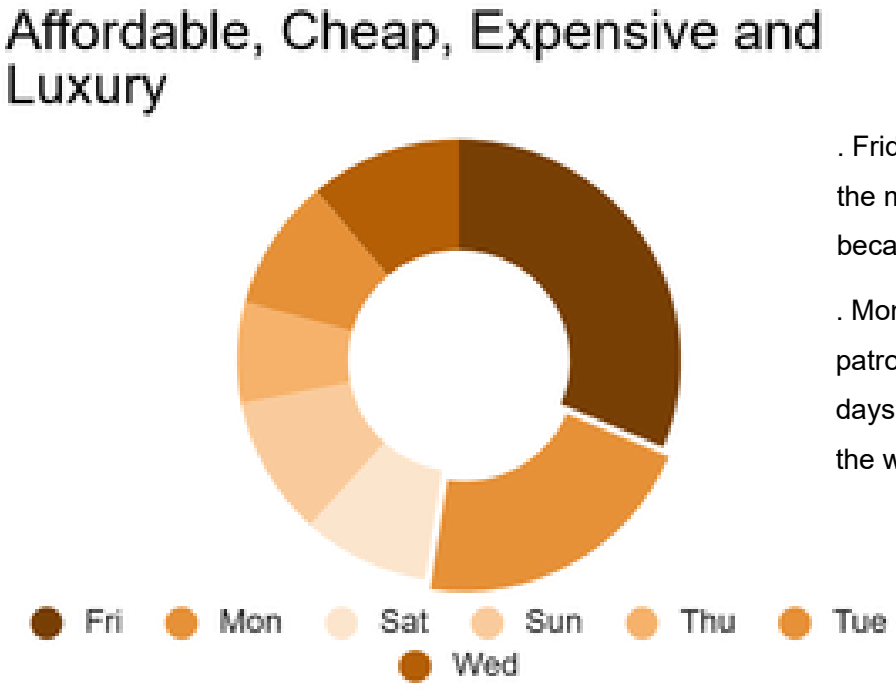


## KEY INSIGHTS

. The majority of activity occurs inthe morning across all days , dominating roughly 75 - 100% of daily distribution.

. Evining activity is present only on Friday and Tuesday, representing a small portion of the total daily activity, while afternoon activity is negligible except for a tiny segment on Friday

# WEEKLY PRICE DISTRIBUTION



## KEY INSIGHT

. Friday shows the biggest slice meaning customers tend to buy the most expensive and luxury product on fridays , likely because people treat themselves after workweek.

. Monday and Thursday have the smallest portions, indicating patrons options for cheap and affordable products on these days, probably to keep costs low at at the start and middle of the week.

# RECOMMENDATIONS

. Focus marketing and inventory boosts in June for all locations and invest in strategies to lift Astoria and Hell's kitchen's perfomance to match Lower manhattan's level, especially in peak month.

. promote mid week luxury coffee specials or loyalty discount to shift some friday luxury spending into earlier days, smoothing revenue and encouraging more premium purchase es through the week.

. Prioritize inventory and marketing fore coffee,tea and bakery.

. Evaluate strategies for underperforming category.

. Focus scheduling or resource allocation on morning session to maximize efficiency, and investigate why evening activity appears only on specific days to optimize usage across all time slots
